Swastik Gold

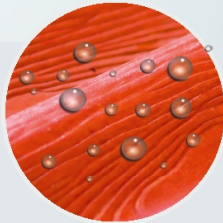

Swastik Gold Roofing Sheets are manufactured from a quality blend of Cement, Fly Ash, Imported Chrysotile (Fibre), and Cellulose. This roof comes with a distinctive wood grain design and pre-stained (terracotta solid and walnut) options. These sheets are not only beautiful in their aesthetic appearances but are also very reliable and strong in nature, lasting for a long period of time.

Advantages of Stain Process

- Protection from UV rays
- Protection from Fungus / Algae
- Water repellent (Similar to lotus effect)
- Protecting sheets by giving 50% more life (compared to normal paints)
- Long lasting
- No toxic smell

Why choose Swastik Gold over Metal Coloured Sheets

Swastik Gold Designer Roofing Sheet

- 6 mm thick and strong
- No visible scratches
- Safer because of self weight
- No annoying rain sound
- Wood texture and 2 stain colors
- Colour looks better as time passes
- No rusting, no leakage
- Protection from Fungus / Algae
- Cool homes during summer

Metal coloured sheet

- Only 0.45 mm thick
- Scratches visible
- Can be blown away in tornado
- Annoying rain sound
- Dull unattractive colour
- Colour fades as time passes
- Rusts and leakages
- Formation of Fungus / Algae
- Homes heat in summer

No Rusting

Heat Resistant

Sound Insulation

Applications

Swastik Gold fibre cement roofing sheet can be used in a variety of sectors providing a cost effective solution to contractors and end users.
